

First Singapore Airlines Cargo flight handled by SATS HK
01 September 2009

A delegation of SATS HK executives led by SATS SVP PRD Mr. Andrew Lim welcomed SQ7972's arrival at Hong Kong International Airport (HKG) on 1st September 2009.

The B747F was the first Singapore Airlines (SQ) Cargo flight handled by SATS HK

Chief Executive Officer Mr. Tom Wong said, "I was excited to witness the first SQ Cargo freighter being handled by SATS HK. The flight handling went very smoothly, thanks to the excellent preparation led by Mr. Andrew Lim and the hard work of SATS HK operation teams with tremendous support from SATS HQ (APS) and Asia Airfreight Terminal. I would also like to thank SQ Cargo HQ and Hong Kong management for entrusting SATS HK to handle their flights. And I hope SATS HK will have more cooperation with the SIA Group in the near future."

The flight carried its load safely and departed to Singapore two hours after arrival in HKG.

Singapore Airlines Cargo, one of the world's leading carriers, operate 13 flights out of HKG every week using B747F. SATS HK is pleased to partner with the Carrier by providing ramp handling services.
