

eCommerce Handling

Our Product Offering

Our eCommerce Logistics Handling Service enhances operational efficiency and customer satisfaction through smoother handling and greater visibility at origin and/or destination. Our product enables a streamlined logistics flow for export and import processes. We deliver continuous status transparency which empowers businesses to scale reliably, reduce lead times and elevate the end-consumer experience.

EXPORT

Freight and Document Acceptance, ULD Buildup, Security Screening, Sorting, Scanning & Labelling.

IMPORT

Freight Retrieval from GHA, ULD Breakdown, Sorting, Scanning, Customs Inspection Facilitation & Handover for last mile delivery.

Our Value Proposition

- **At Origin:**
 - Shortened Processing Time
 - Reduced Touchpoints & Interfaces
 - Seamless Shipment Uplift
 - Timely status updates during middle mile movement
- **At Destination:**
 - Expedited cargo retrieval, enabling quicker processing
 - Fewer Touchpoints / Interfaces and reduced transportation steps
 - Speed to market / consumer to enhance end-customer satisfaction
 - Data Transparency - Real Time Process Visibility

Your Benefits

- **Fewer touchpoints and minimised transportation for greater efficiency**
- **Streamlined logistics flows for smoother handling and greater visibility at origin and / or destination**
