

CT2207T056 Quotation Price Breakdown

S/N	AHU	Item	Price per item	Sub-Total
1	AHU 4-2A	Preliminaries		
		Dismantle and disposal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
2	AHU 4-2B	Preliminaries		
		Dismantle and disposal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
		3	AHU 4-3A	Preliminaries
Dismantle and disposal fee				
New AHU equipment work				
Sensors, meters and actuators (exclude BTU meter as under optional)				
Control Panel and necessary electrical works				
Ducting and Damper Work				
Valves and Piping works				
Air Balancing				
AHU Interfacing work with BMS and FAS				
Testing and Conditioning				
4	AHU 4-3B			Preliminaries
		Dismantle and disposal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		

5	AHU 4-6A	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
6	AHU 4-6B	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
7	AHU 4-7A	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
8	AHU 4-7B	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		

9	AHU 4-8A	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
10	AHU 4-8B	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
		Testing and Conditioning		
11	AHU S2-2	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		Air Balancing		
		AHU Interfacing work with BMS and FAS		
Testing and Conditioning				
12	AHU S4-4	Preliminaries		
		Dismantle and dispoal fee		
		New AHU equipment work		
		Sensors, meters and actuators (exclude BTU meter as under optional)		
		Control Panel and necessary electrical works		
		VSD		
		Ducting and Damper Work		
		Valves and Piping works		
		AHU Interfacing work with BMS and FAS		
		Air Balancing		
Testing and Conditioning				

13	All	Chilled Water Balancing		
14	All	Contractor to Specify:		
				Total

Optional Scope of Works			Unit	Price per unit
1	Optional	Pre-retrofit audit for AHU	per AHU	
2	Optional	Post-retrofit audit for AHU	per AHU	
3	Optional	Pre-AHU including control panel for AHU 4-2A and 4-2B	Lot	
4	Optional	Pre-AHU including control panel for AHU 4-3A and 4-3B	Lot	
5	Optional	UV Disinfection including all necessary work such as additional power supply	per AHU	
6	Optional	Sensor Automatic control device to regulate outdoor air flow to maintain CO2 concentration including all necessary work	per AHU	
7	Optional	BTU meter for monitoring of AHU parameter as per BCA green mark requirement	per AHU	

***SATS shall reserved the right to add or reduce the quantity according to the submitted price per unit**
