15 SEP 2021

Dear Sir/Madam

Your Vehicle RU3593L Will Be Deregistered On 02 Oct 2021

Your vehicle RU3593L will be deregistered on 02 Oct 2021 as the vehicle has reached the end of its statutory lifespan.

When your vehicle is deregistered, you must dispose of it and submit the disposal documents by 02 Nov 2021. Otherwise, it is an offence and the penalty is a fine of up to \$2,000 and imprisonment of up to 3 months for the first offence. Subsequent offences carry heavier penalties.

You can dispose of your vehicle in one of these ways:

- Scrap it at an LTA-authorized scrapyard
- Store it at an LTA-authorized Export Processing Zone (EPZ), pending export
- Export it

If you scrap your vehicle at a scrapyard or store it at an EPZ, the scrapyard or EPZ will send the disposal records to LTA on your behalf. If you export the vehicle, you will need to submit the export documents to LTA. More details on the disposal procedures are attached for your reference.

What You Need To Do:

- You must dispose of your vehicle if your vehicle is going to be deregistered.
- You can dispose of your vehicle in one of these ways:
 - Scrap it at an LTA-authorized scrapyard.
 - Store it at an LTA-authorized EPZ.
 - Export it.

PROCEDURE TO DISPOSE OF YOUR VEHICLE

There are three ways to dispose of your vehicle:

- Scrap it at an LTA-authorised scrapyard
- Store it at an LTA-authorised EPZ, pending export
- Export it

If you scrap your vehicle at a scrapyard or store it at an EPZ, the scrapyard or EPZ will send the disposal records to LTA on your behalf. If you export the vehicle, you will need to submit the export documents to LTA.

- **Scrap Vehicle at LTA-authorised Scrapyard**

Send your vehicle to an LTA-authorised scrapyard. The person disposing of the vehicle at the scrapyard must bring his/her original NRIC or Employment/Immigration pass card (issued by MOM or ICA). If the vehicle is already deregistered, it cannot be driven there, as it is an offence to use a deregistered vehicle. Tow or arrange for your vehicle to be transported there.

The disposal details will be submitted on your behalf to LTA.

- **Store Vehicle in LTA-authorised Export Processing Zone (EPZ), Pending Export**

Arrange with an LTA-authorised EPZ operator to store your vehicle.

Send your vehicle to an LTA-authorised EPZ. The person disposing of the vehicle at the EPZ must bring his/her original NRIC or Employment/Immigration pass card (issued by MOM or ICA). If the vehicle is already deregistered, it cannot be driven there, as it is an offence to use a deregistered vehicle. Tow or arrange for your vehicle to be transported there.

The disposal details will be submitted on your behalf to LTA.

A vehicle can be stored in an EPZ for up to 12 months. Once your vehicle exits the EPZ, you must submit the export documents to LTA via the EPZ operator within 14 days.

- **Export Vehicle**

Export the vehicle yourself, or engage a motor dealer to help you. Use a CaseTrust-SVTA-accredited motor dealer for greater assurance.

After your vehicle is exported, submit the export documents to LTA online at onemotoring.lta.gov.sg > Digital Services > Upload Disposal Documents. The export documents you need to submit are:

- Duly endorsed* Singapore Customs Cargo Clearance Permit (CCP) and non-negotiable Bill of Lading, for vehicles exported by ocean.
- Duly endorsed* Singapore Customs CCP and Malaysian Customs' Inward Declaration Permit, for vehicles exported by land.
